الفقرة الإنشائية (البرجراف) : سؤال البرجراف من ٤ درجات و عدد كلمات الموضوع من ١٠٠ كلمة (لموضوع واحد من موضوعات الكتاب) . لذلك سنحاول التحدث عن بعض المهارات التي ستساعدك على كتابة البرجراف بشكل صحيح.

أجزاء البرجراف Parts of the paragraph

- | | |
|-------------------------|-----------------|
| 1. Topic Sentence | جملة المقدمة |
| 2. Supporting Sentences | جمل دعم الموضوع |
| 3. Conclusion | الخاتمة |

كتابة الفقرة يجب أن نضع في الاعتبار بعض القواعد:

١- نكتب العنوان أولاً ، ثم جملة مقدمة عن الموضوع. وهذا مثال لمقدمة مفيدة لموضوعات عامة ...

We all know that **اسم الموضوع** is/ are very important and interesting, too.
It helps us a lot in our life.

كلنا يعلم أن (اسم الموضوع) مهم و شيق أيضاً. و هو يساعدنا كثيرا في حياتنا.

و هي تصلح للعديد من الموضوعات منها
Internet / Mobile phones / technology
Holidays / Hobbies / Voluntary work / School

ليس من الضروري استخدام هذه المقدمة في جميع الموضوعات. و يمكن استخدام أفكار أخرى.

٢- نترك مسافة قبل كتابة الجملة الأولى في السطر الأول فقط من الموضوع.

٣- نراعي علامات الترقيم ، نستخدم الحروف الكبيرة (Capital letters) في بداية كل جملة و في بداية أسماء الأشخاص و البلاد و اللغات و أيام الأسبوع ... و نضع (.) في نهاية كل جملة.

٤- نبدأ الجملة بالفاعل ثم الفعل. و نستخدم الزمن المناسب للموضوع (مضارع أو ماض).

٥- نستخدم جملاً بسيطة، لا داعي للتعقيد. و نستخدم القواعد بشكل صحيح.

٦- نهتم بالتنظيم و حسن الخط و ترك مسافة بين الكلمة و الأخرى.

٧- يمكن استخدام بعض العبارات التي تساعدك على دعم و تنظيم وترتيب الموضوع ، مثل :

بعد ذلك ... / After that, ... ثم ... / Then, ... أولاً ... / First, ... في رأيي ... / In my opinion,

بالإضافة إلى ذلك ... / In addition to that, ... في الحقيقة ... / In fact,

٨- الموضوع الجيد ينتهي بخاتمة معبرة عن مضمون الموضوع و يمكنك استخدام التالي:
To conclude, **اسم الموضوع** is very important for me and for many people.

تلخيصاً لما سبق ، إن هذا الموضوع هاماً جداً بالنسبة لي و للعديد من الناس ...

للنصيحة فعل مصدر ... is very useful. Really, we should + **اسم الموضوع** ... Finally,

٩- بعد الانتهاء من البرجراف نتأكد من أن عدد الكلمات مناسب للعدد المطلوب.

Unit 1

1. Gen Alpha جيل ألفا

Gen Alpha is the generation of children born from 2010 to the mid-2020s. They are called **digital natives** because they grow up surrounded by technology such as smartphones, tablets, and social media. Many of them learn to use apps before they can read. They spend a lot of time online watching videos, sharing memes, and using emojis. Parents and teachers encourage them to balance screen time with real-life activities. Gen Alpha is creative, quick to learn, and can use technology in positive ways. Gen Alpha always looks for new ways to express themselves and likes using digital tools to create their identity in the modern world.

2. A Day in the Life of a Gen-Alpha Teen يوم في حياة مراهق من جيل ألفا

I'm a Gen-Alpha Teen and my day is full of digital activities. I usually wake up and check my smartphone before school. I like to watch short videos, follow online trends, and send funny emojis to my friends. Sometimes I play online games to relax. Still, I try to keep a good balance between my screen time and other hobbies. I spend time outside, read books, and talk with family. My friends and I have many things in common, which helps us connect online and offline. Finally, I advice my frience to balance their didgtal life with real life activities.

3. Generation Z and Generation Alpha جيل زد و جيل ألفا

Generation Z and Generation Alpha are two young generations living in the digital age. Generation Z was born between 1997 and 2012, while Generation Alpha was born from 2010 onwards. Both groups are growing up with smartphones, tablets, and computers. They enjoy watching videos, using social media, and playing online games. These generations also care about the environment and fairness. Even though Gen Z is older, they have many things in common with Gen Alpha. Technology helps them connect, share ideas, and work together to make the world a better place.

4. An important device / invention / Smartphones جهاز هام / اختراع / الهواتف الذكية
 "My Favorite Digital Device" جهازي الرقمي المفضل
 "The Importance of Technology". أهمية التكنولوجيا

We all agree that modern technology is very important for all of us. We use it every day. We use computers, smartphones, laptops ... etc. everywhere. They help us at homes, at schools and in our daily work. They make work easy. The Smartphone is very useful. It is **also** important these days. We use it to make calls. We use it to send messages, too. It helps us to surf the internet. We can watch videos on YouTube. We can download programs or play games online. We can take pictures with it. Really, it is a great invention.

5. "How to Stay Safe Online" البقاء آمناً على الإنترنت

Staying safe online is very important for everyone, especially young people. We should never share our personal information, like our address, phone number, or passwords, with strangers. It is better to use strong passwords and change them regularly. We must be careful when we click on links or open unknown emails, because they may contain viruses. Always ask an adult if you are unsure about something online. Using the internet wisely helps us enjoy learning, sharing, and connecting while staying safe and secure. Finally, we should follow these steps to stay safe online.

6. Your digital footprint بصمتك الرقمية

Your digital footprint is everything you leave behind when you use the internet. It includes your photos, videos, comments, and even the websites you visit. This footprint is permanent and can be seen by friends, teachers, or even future employers. That's why we must think carefully before posting anything online. Sharing kind and positive content builds a good image, while careless posts may cause problems later. Protecting your privacy, using safe passwords, and being respectful online help keep your digital footprint clean and safe.

7. Good and bad sides of social media الجوانب الجيدة و السيئة لمواقع التواصل

Social media has both good and bad sides. On the good side, it helps people stay connected with family and friends, share ideas, and learn new things. It can also help students find information easily and join online classes. However, social media can also have bad effects. Some people spend too much time on it and forget to study or rest. Others may face bullying or read false information. We should use social media wisely and balance our online and real lives.

8. "The Pros and Cons of Using the Internet" مزايا و عيوب الإنترنت

The internet has many pros and cons. One of the biggest advantages is that it helps us find information quickly and learn new things easily. It also allows people to communicate with family and friends around the world. Students can study online, watch lessons, and do research for school. However, the internet also has disadvantages. Some websites are unsafe, and people can waste time on games or social media. Too much screen time can affect our health and sleep. To enjoy the benefits, we must use the internet wisely and stay safe online.

9. "My Favorite Free-Time Activity" نشاطي المفضل في وقت فراغي

My favorite free-time activity is reading. I enjoy reading because it helps me relax and forget about stress. I like different kinds of books, especially adventure stories and real-life experiences. When I read, I learn new words and ideas, and I feel like I am traveling to new places. I usually read in the evening when the house is quiet. Sometimes I read for school, but I also read just for fun. Reading makes me happier and helps me understand the world better. That is why it is my favorite activity in my free time.

Unit 3

10. A challenge you faced تحدي واجهته

موقف صعب مررت به "A Difficult Situation You Got Through"

One big challenge I faced was giving a speech in front of my class. At first, I felt very nervous and even forgot some of my words. My hands were shaking, and I wanted to stop. But then I remembered my teacher's advice to stay calm and take a deep breath. I continued speaking slowly until I finished. In the end, my classmates clapped for me, and I felt proud of myself. This challenge taught me to never give up, to believe in my abilities, and to keep trying even when something feels difficult or scary. It made me stronger.

11. The Traffic Problem in Cairo مشكلة المرور في القاهرة

Cairo is a very big and busy city, and traffic is one of its biggest challenges. Every day, many cars, buses, and motorbikes make the streets crowded and slow. People often spend a long time waiting in traffic, which makes them tired, stressed, and sometimes late for work or school. To face this problem, Egypt has built new metro lines, flyovers, tunnels, and bridges to improve transportation. The electric train and monorail are also helping people move faster and more safely. Using public transportation more often can make Cairo cleaner, less polluted, and easier to move around for everyone.

12. Tips to keep the Environment Clean" نصائح للمحافظة على نظافة البيئة

Helping the environment where we live is very important these days. I do many things to be eco-friendly. I stopped going to school by bus and I started going to school by bike because it is eco-friendly. I don't throw rubbish in the street. I try to recycle old plastic and paper. At home, I take short showers not long showers. I turn off the lights when I leave the room. I don't turn on the devices for a long time. If we all do things like these, the Earth will be better.

13. Your future job وظيفتك المستقبلية

I want to be a doctor, but I need a lot of skills to do that. Tomorrow, I'm going to visit my uncle. He's a doctor, so he can give me some advice. Next summer, I'm going to take a course in English. You need to speak good English to be a doctor. Before I leave school, I'm going to do voluntary work at a children's hospital. In a few years' time, I want to go to a good university. Then, in about ten years' time, I think I'll be a doctor in a good hospital.

14. Tips for Facing Challenges in Life

Everyone faces challenges in life, but there are simple tips that can help us overcome them. **First**, stay calm and take a deep breath before reacting to any problem. This helps you think clearly. **Second**, break the challenge into small steps so it feels easier. **Third**, ask for help from teachers, parents, or friends to get support. Don't solve everything alone. Also, learn from your mistakes to grow stronger. Finally, always believe in yourself and keep trying. With patience, courage, and hard work, you can face any challenge that comes your way.

15. A Story You Read and the Lessons You Learned قصة قرأتها ودرس تعلمته

One story I read was about a young girl called the Little Inventor who loved creating new things. She always used simple materials like paper, wires, and old boxes to make small machines. At first, many of her ideas didn't work, and students laughed at her strange inventions. But she never stopped trying. She kept experimenting, fixing mistakes, and learning new skills. One day, she finally created a robot that impressed everyone. From this story, I learned the importance of creativity, patience, and hard work. It also taught me that great ideas often start small and grow with practice and courage.

Unit 4

16. My favorite work of art عملي الفني المفضل

"An Interesting Art Gallery You Visited" / "Your Visit to an Art Exhibition"

Last week, I visited an interesting art gallery in Cairo. It was an amazing visit. My favorite work of art there was a colorful painting. It showed a bright sunset over the sea, with smooth waves and golden light shining on the water. The artist used warm colors that made me feel calm and happy. I liked this painting because it expressed peace and beauty. I believe the artist wanted to share a special feeling with everyone. This artwork had a personal touch. It was a source of joy for me.

17. Art Doesn't Have to Be Perfect ليس ضروريا أن يكون الفن مثاليا

Art doesn't have to be perfect to be beautiful or meaningful. Many people think they must draw or paint perfectly, but art is really about expressing your feelings and ideas. When you create something, it shows your personality, imagination, and creativity. Mistakes can even make your artwork special and unique. Every artist learns by trying, practicing, and experimenting with new colors and shapes. What matters most is enjoying the process, not worrying about the result. Art can be messy, simple, or unusual, and it is still valuable. When you create from the heart, your art is perfect in its own way.

Unit 5

18. My Dream Holiday عطلةتي التي أحلم بها / "A Visit to a Place You Like".

My dream holiday is to travel to a peaceful beach with clear blue water and soft sand like the beaches in Sharm El-Sheikh or Hurghada. I would like to stay in a small hotel near the sea, where I can hear the waves every morning. I want to spend my days swimming, taking photos, and relaxing under the sun. In the evenings, I would enjoy delicious food and watch the sunset with my family. This holiday would help me rest, have fun, and make wonderful memories. It is the perfect holiday I always dream about. I wish to make it soon.

19. A country I would like to visit دولة أود أن أزورها

I would love to visit Japan one day. The country is famous for its rich culture, amazing landmarks, and delicious food. I want to explore Tokyo, see the cherry blossoms, and visit beautiful temples. I would also like to travel to Kyoto and

learn about traditional ceremonies. Walking around the streets, I could buy souvenirs and try local treats. Japan seems full of life and unforgettable experiences. I hope to see Mount Fuji and take many colorful photos. Visiting Japan would be a dream come true!

20. A trip I made / رحلة قمت بها / "Famous Landmarks in Egypt"

Last summer, I went on a trip to Cairo with my family. We visited the famous Pyramids of Giza and the Great Sphinx. I was amazed by the huge size and history of these landmarks. We also went to Khan El-Khalili bazaar and bought colorful souvenirs and traditional handicrafts. The city is full of lively culture, delicious food, and friendly people. I felt a sense of peace while walking around the gardens. This trip gave me unforgettable memories, and I hope to visit Cairo again soon.

Unit 6

21. My role model / قدوتي / Dr. Ahmed Zewail / دكتور أحمد زويل

My role model is Dr. Ahmed Zewail, the famous Egyptian scientist. He was born in Damanhur and grew up in Alexandria. From a young age, he loved learning and showed great interest in science. Dr. Zewail worked very hard and became a professor of chemistry at the California Institute of Technology. He discovered the femtosecond, which changed the world of chemistry and opened the door for scientific research. He always believed in education and encouraged young people to work hard, trust themselves, and never give up. I admire his determination and achievements.

22. An Important Egyptian engineer / مهندس مصري بارز

Hany Azer is an important Egyptian engineer. He was born in Tanta, Egypt, and became famous for his work in civil engineering. Hany Azer worked as the chief engineer for the Berlin Main Station in Germany, one of the largest train stations in Europe. He has had a great impact on modern engineering and inspired many young engineers in Egypt and around the world. He believes in using science and technology to help people. Hany Azer is a role model because of his hard work, creativity, and support for science.

23. Something You Want to Invent Helps Your Community / شئ تود اختراعه يساعد مجتمعتك / "Your Favorite Invention" / "An Invention That Could Solve a Real Problem"

If I could invent something to help my community, I would create a **smart recycling machine** that can sort and clean waste automatically. **It is my favorite invention.** Many people throw rubbish on the streets because they don't know where to put it, so this machine would make recycling easier for everyone. It would have separate sections for plastic, paper, metal, and food waste. The machine would also send a message to the municipality when it becomes full, so workers can collect it on time. This invention would keep our streets cleaner, reduce pollution, and teach people the importance of caring for the environment.

Hi Nabil, How are you and how is your family? I want to tell you about an inventor I truly admire is Thomas Edison, the man who created the electric light bulb. He was not only creative but also extremely hardworking. Edison failed many times before his invention succeeded, yet he never gave up. He believed that every failure was just another step toward success. His inventions, like the phonograph and improvements to the telephone, changed the world and made life easier for millions of people. What I admire most is his determination and positive attitude. He teaches us that big achievements come from patience, effort, and believing in your ideas even when others doubt you happily. TTYL!, Mohamed

How to Design an Invention

Designing an invention starts with finding a problem 🤔 that needs a solution 💡. First, observe your home 🏠, school 🎒, or community 🌐 and think about what could be improved. Next, brainstorm ideas 💡 and draw simple sketches 📐 to show how your invention will work. Then choose the best idea ★ and gather the materials 📦 you might need to build a small model 🧩. After that, test 🔍 your model to see what works well and what needs fixing. Don't worry if it fails at first—improving 🛠️ it is part of the process. Finally, make a clear plan 📅 of how your invention helps people. Creativity 🧠 and patience 🕒 are essential.
